Part 2: Proposal	
The Union Notes	<p><i>The current lack of a centralized and accessible student notice board across our university facilities presents a significant gap in communication and information dissemination. As of now, students face challenges in staying informed about crucial announcements, upcoming events, and various opportunities available on campus. The absence of a dedicated platform hinders the effectiveness of sharing important information with the student body.</i></p> <p><i>No physical site for centralised form of communication has led to missed opportunities for student engagement, limited awareness of extracurricular activities, and a general sense of disconnect among the student community. A visible and easily accessible student notice board in key locations across our facilities is crucial to addressing these challenges and fostering a more informed and engaged student population.</i></p>
The Union Believes	<p><i>The proposer and the student body share a common belief in effective communication and its pivotal role in fostering a connected and engaged university community. It is believed that a well-structured and prominently placed student notice board across all facilities will address the existing communication challenges and significantly enhance the overall student experience.</i></p>
The Union Resolves	

	<i>The proposed policy aims to achieve several key outcomes that respond to the identified needs within the student community. By implementing a student notice board initiative across all USW campus SU spaces.</i>
